Fully Supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

Menstuation affects most women and the poorest in our society often cannot afford to by protective products and are left improvising with inadequate and unsafe makeshift alternative cover such as socks, loo roll etc. Periods are a part of most women's life and proper protection must be easily available to all, regardless of financial status. It is also ridiculous that sanitary products are subject to VAT as definitely not a luxury item.

Please explain the reasons for your response

This is a product required by all women irrespective of wealth and so as not to discriminate rich from poor - must be freely available to all.
