Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

As a retired teacher and a woman who suffered acutely and monthly, I am aware of how difficult dealing with periods can be for women - especially the young and the poor.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

It would avoid embarrassment.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

That would be non-discriminatory.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Any of these which are easily accessible.

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Again, this would be easily available and free from embarrassment.

As a school girl who began to menstruate aged ten, I was quite ignorant and often unable to buy sanitary pads.

Not applicable: I do not need or use sanitary products

Please explain the reasons for your response

Way past the menopause!
