Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

It's totally unacceptable for women to be denied a basic essential due to being on a low income. Sanitary products are not a luxury, they're essential to allow a woman to live her life.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

Q3. Which of the following best expresses your view in relation to a card-based system?

There is no need for a card scheme

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

I think it can't just be in doctor surgeries, it should also be in public toilets

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Having a surprise period at school is bad enough, girls shouldn't have to also worry about having no access to sanitary products

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, occasionally

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally

Please explain the reasons for your response

I buy my own products, but everyone gets caught out on occasion so at those times I might claim a free product

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)		X				
(b) Colleges and universities		X				
(c) Businesses (including suppliers/retailers of sanitary products)						X
(d) Individuals (including consumers of sanitary products)			X			

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Stop charging VAT on sanitary products, they're not a f*cking luxury. There is nothing luxurious about menstruation

Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?
