Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

I totally support this Bill as during my 30's I went through some hard times and I put food in my sons belly before my comfort. If I didn't need to choose it would have made life a lot easier. It takes two to make a baby but only the woman carries the burden in between.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

I personally would only use card if I was struggling to pay.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

Women are proud and would only use if desperately needed.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

All pharmacies ,Gp surgeries ,health clinics and community centres.

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Of course schools colleges and universities need to be included in this as girls and young women need access wherever they are learning.

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, frequently

Please explain or give an example of your experience if you feel able to do so.

As stated before in my 30's while I was raising my son

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

Please explain the reasons for your response

Not applicable as I am now 3weeks from my 60th birthday
