Fully Supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

Women should be able to go about their normal daily lives with dignity at all times of the month. For those who struggle to make ends meet the choice is often between food and sanitary products. That should not be a choice anyone is forced to make. providing free sanitary products would also help break the taboo around periods and women's health in general.

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

Please explain the reasons for your response

I am not familiar with the c-card system.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available only to those on low incomes or in receipt of benefits; card-holders should have unlimited access to free sanitary products

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

pharmacies, community centres, food banks, GP surgeries
