Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

As a young woman who struggled financially all life I've endured the ridicule and the shame of not being able to access decent sanitary products and that is why I fundamentally support this bill as no girl or woman should be ashamed or denied basic human needs.

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

No

Please explain the reasons for your response

No I think that adds further stigma, a bit like having to be referred to a food bank. The card would carry shame to the owner. Products should be readily available and easy to access.

Q3. Which of the following best expresses your view in relation to a card-based system?

There is no need for a card scheme

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

GP, paharmacies, clinics, schools, colleges, universities, public buildings

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, frequently

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Please explain or give an example of your experience if you feel able to do so.

Public toilets are notorious for costing ridiculous money for example Waverley Station, this should be illegal.

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)		X				
(b) Colleges and universities		X				
(c) Businesses (including suppliers/retailers of sanitary products)		X				
(d) Individuals (including consumers of sanitary products)					X	

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

No Response
