Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

**Please explain the reasons for your response**

This is discrimination of women at a very basic level. Women bleed, we can't help that, If we didn't, humanity would cease to exist. Not only do we pay for sanitary products but they are regarded as a "luxury". We can't choose our gender so why should we literally have to pay for it.

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

**Please explain the reasons for your response**

It should be easy to put in place if used alongside your National Insurance number.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

**Please explain the reasons for your response.**

No restriction but with an inventory /audit in place to ensure it is not abused.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Health clinics so that perhaps advice /guidance could also be accessed.

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes, occasionally

**Please explain or give an example of your experience if you feel able to do so.**

When young my family, 3 girls, could not afford to buy sanitary products. When I was a mother of small children I struggled sometimes too.

Q7. If sanitary products were available for free, which of the following would apply to you?
