Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

As a father of a girl who also had younger sisters I know it would benefit girls greatly. These kind of things should be Freely Available in a way the Girls who are needing them can access them without the knowledge of others whom could make fun of them. We know how kids can be ignorant and uneducated and this is a way for privacy too.

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

Please explain the reasons for your response

Not all people who use this want others to know

Q3. Which of the following best expresses your view in relation to a card-based system?

There is no need for a card scheme

Please explain the reasons for your response.

If you are that hard up that you would ask someone to go get this for you, you probably do need it

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Any of the above. Probably from all these places.

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

It's just as important as toilet paper.
