## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

**Please explain the reasons for your response**

I am fully supportive because although I've been lucky enough to afford these products I know many woman out there are not as lucky and I wouldn't want anyone to have to go around with being able to acquire sanitary products because I don't just where them as a luxury and I feel it is important that everyone knows about it and not just women, we should spread knowledge so that everyone can get involved. It's not just a "woman topic" men should have an opinion too (not saying that all men don't) but many don't think about it as they don't think it affects their lives but it does. I'm sure throughout their life someone will be experiencing periods and we should all know about what goes on and people shouldn't be without something which should be free.

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

**Please explain the reasons for your response**

Although it may be a good method people may be embarrassed by having to get free sanitary products (even though they shouldn't be).

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Anywhere which allows them to be dispensed from

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

**Please explain the reasons for your response**

Everyone will be in desperate need for one at some point in their lives

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, occasionally

**Please explain or give an example of your experience if you feel able to do so.**

I was in the zoo and they have no dispensers that I could find

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)		X				
(b) Colleges and universities		X				
(c) Businesses (including suppliers/retailers of sanitary products)			X			
(d) Individuals (including consumers of sanitary products)				X		

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

*No Response*
