Q1. Which of the following best expresses your view of the proposed Bill?

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Please explain the reasons for your response

Provisions should be made to take away embarrassment caused not being able to afford suitable sanitary products. It's a necessary for woman regardless of income.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

No

Please explain the reasons for your response

It could cause embarrassment asking free products especially for younger girls.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

Please explain the reasons for your response.

Everyone needs to be able to receive or it may stigmatise claiming. Just because your not on benefits means doesn't mean you can afford these products.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Community centres, schools, colleges.

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

It's these females who are most likely to feel embarrassed or not able to afford appropriate products

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, occasionally

Please explain or give an example of your experience if you feel able to do so.

As a pupil and a student I had limited funds and felt embarrassed asking for money to buy these products if I was caught out unexpectedly

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally

Please explain the reasons for your response

I am on contraception which limits my periods and would only on rare occasions be caught out.
