

Proposed Sanitary Products (Free Provision) (Scotland) Bill

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

No Response

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I am content for this response to be attributed to me or my organisation

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

carole thorpe

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

period poverty causes young girls and women to miss out on education and other opportunities which leads to even more disadvantages for them

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

if this system is already being used successfully and has been tested then it would make sense to utilise it for this

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

Please explain the reasons for your response.

it should not be unduly limited as some women use more products than others

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

availability should be provided for all so in country areas where it may be more difficult for access, other places may need to be used such as local post office, pub etc or whatever is used by a community

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

absolutely- this has a huge impact on the education of girls from poorer backgrounds who are already at a disadvantage

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

No

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)			X			
(b) Colleges and universities			X			
(c) Businesses (including suppliers/retailers of sanitary products)			X			
(d) Individuals (including consumers of sanitary products)				X		

Please explain the reasons for your response

these products should be considered along with other sanitary provisions and provided for free. I doubt if there will be a large increase in costs to anyone

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

I see no reason to reduce the cost of this initiative. The benefit to girls and women will ultimately be a benefit to society- fewer days missed from schooling will lead to better attainment and the ability to earn more money - then they will be able to buy their own.

Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Positive

Please explain the reasons for your response
better educational opportunities for women

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

No Response

Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

No Response
