

# Proposed Sanitary Products (Free Provision) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Professional with experience in a relevant subject

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I am content for this response to be attributed to me or my organisation

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Eliot Waterhouse

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

**Please explain the reasons for your response**

Q1. Which of the following best expresses your view of the proposed Bill?

Women already earn less than their male counterparts. They do not have the choice over whether they bleed each month, and an increase in tax or price on sanitary products pushes the cost of being a female even higher, widening the inequality between men and women

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

**Please explain the reasons for your response**

The card-based system could bring about some stigma attached to those who subscribe to a card vs. those who decide not to and pay for sanitary products. Although it does provide a means to see where uptake is most, and helping plan future demand

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

**Please explain the reasons for your response.**

A use of cards for only those on low incomes or in receipt of benefits may increase stigma attached to the card and decrease uptake

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

All of the above? Libraries

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Unsure

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

I prefer not to say

Q7. If sanitary products were available for free, which of the following would apply to you?

I prefer not to say

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
<b>(a) Government and the public sector (e.g. local authorities, the NHS)</b>		X				
<b>(b) Colleges and universities</b>		X				
<b>(c) Businesses (including suppliers/retailers of sanitary products)</b>			X			
<b>(d) Individuals (including consumers of sanitary products)</b>				X		

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Online registration and ordering of certain products to reduce waste

## Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

*No Response*

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

Pilot period to iron out teething problems

## Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

## Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

*No Response*
