

# **Proposed Sanitary Products (Free Provision) (Scotland) Bill**

## **Page 2: About you**

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Student (at school, college or university)

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## **Page 7: Your views on the proposal**

Q1. Which of the following best expresses your view of the proposed Bill?

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

**Please explain the reasons for your response**

Everyone has the right to basic human dignity

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

**Please explain the reasons for your response**

It seems fair, easy to implement and not open to abuse. It would have to be widely publicised though.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available only to those on low incomes or in receipt of benefits; card-holders should have unlimited access to free sanitary products

**Please explain the reasons for your response.**

It doesn't make sense to have wealthier people getting given things from the state, however, those who cannot provide for themselves should be given all the help they need.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Unsure

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

**Please explain the reasons for your response**

They are basic necessities

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g.financial barriers, unexpected circumstances, health issues)

Not applicable: I do not need or use sanitary products

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

**Please explain the reasons for your response**

I'm male and do not menstruate

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)		X				
(b) Colleges and universities		X				
(c) Businesses (including suppliers/retailers of sanitary products)			X			
(d) Individuals (including consumers of sanitary products)					X	

**Please explain the reasons for your response**

Not sure how far I can illustrate this because I don't know how much it costs to make and distribute sanitary products, but I imagine not that expensive.

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

By means-testing so that only those in genuine need receive it.

## Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Positive

**Please explain the reasons for your response**

It will hopefully reduce some of the stigma around menstruation, which will be a good outcome for gender equality.

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

I'm not sure there would be any negative impact aside from the cost.

## Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

**Please explain the reasons for your response:**

Sanitary products are (to my admittedly limited knowledge) fairly basic things, so it should be fairly easy to deliver them to those in need.

## Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

Why has nobody thought of this before?
