Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

**Please explain the reasons for your response**

We must ensure no woman or girl ever feels the need to put food, heat or shelter ahead of sanitary products. In the 21st Century in a relatively wealthy Country such as ours we must realise sanitary products are not a luxury but a necessity. Such products must be freely available in schools, Colleges, Universities, public buildings, public toilets, restaurants and workplaces.

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

No

**Please explain the reasons for your response**

I am not supportive of a card system as this could impractical to utilise for those most in need.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

**Please explain the reasons for your response.**

If a card scheme is to be introduced it should be freely available to everyone.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Any public's place could provide sanitary products.
