Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

Many young girls and women are very sensitive about periods and would be embarrassed about buying sanitary products or talking about the issue and feel that poverty around period products are growing. Prices are growing for sanitary products and also it really does have an effect on young girls at school from attending as I'm sure many will try using other products that do leak and so will stay at home.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

Ease of embarrassment and for those who cannot afford the products that are needed

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

All women and girls experience very different menstrual cycles and so some may need more than others and may go over the limit

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Doctors and schools

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

X
