Q1. Which of the following best expresses your view of the proposed Bill?

I see this as a huge benefit for young women in Scotland, I have spoken to many young women about this issue and I can see the detrimental affect this issue has without the proposed bill being gin place. I fully support this bill in combating period poverty in Scotland.

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

No

**Please explain the reasons for your response**

A drop-in area where girls can do so in private.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

I believe that every girl/young women in Scotland should have FREE ACCESS to sanitary products with no limits as there is no universal number of products a girl may use.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

All of the above. Youth work organisations especially.

Its easy to get the products to the young women so they don't have to go out their way.
