

# Proposed Sanitary Products (Free Provision) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

**Please explain the reasons for your response**

The cost of these essential products is high. If condoms are available freely why not sanitary products? It

Q1. Which of the following best expresses your view of the proposed Bill?

certainly remains a "mans world" where this issue is concerned!

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

**Please explain the reasons for your response**

I think a card system has its negatives too. It can be a very embarrassing issue for young girls and i wonder if a card would become a barrier? I think it should be backed up by having them available to pick up at key locations such as doctors surgeries and in schools, youth clubs etc

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

**Please explain the reasons for your response.**

I would prefer that those that cant pay get one and those that can dont but in relation to current policy where all prescriptions in Scotland are free then this issue needs to also be addressed for all women. There should be no limit as every woman is different.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Health and community facilities including youth clubs and school including primary schools

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

**Please explain the reasons for your response**

Please include primary schools in the debate!! Girls have their periods earlier and these children are forgotten. There arent even sanitary bins available in primary schools because society still hasnt caught up. Some girls get there period as young as P5 now and spend years hiding it from there peers and struggling with the facilities available in primary school.

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

No

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
<b>(a) Government and the public sector (e.g. local authorities, the NHS)</b>	X					
<b>(b) Colleges and universities</b>		X				
<b>(c) Businesses (including suppliers/retailers of sanitary products)</b>						X
<b>(d) Individuals (including consumers of sanitary products)</b>					X	

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Unsure.

## Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Positive

**Please explain the reasons for your response**

Periods undoubtedly hold some girls back but for those who cant afford products it must have a highly detrimental affect on their confidence and growth as an individual. This has to stop being a barrier for girls and women!

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

I cant see and negitive impacts to this bill other than cost

## Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

## Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

*No Response*
