

# Proposed Sanitary Products (Free Provision) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Student (at school, college or university)

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Pharmacies, schools, university campuses, GP surgeries.

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

No

Q7. If sanitary products were available for free, which of the following would apply to you?

I would not expect to claim free products

**Please explain the reasons for your response**

I am personally in a position where I am able to access sufficient products when I need them, however for others who aren't it is important that they are able to claim them as much as needed.

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
<b>(a) Government and the public sector (e.g. local authorities, the NHS)</b>	X					
<b>(b) Colleges and universities</b>		X				
<b>(c) Businesses (including suppliers/retailers of sanitary products)</b>			X			
<b>(d) Individuals (including consumers of sanitary products)</b>					X	

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

*No Response*

## Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Positive

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

By explaining where the need for this Bill comes from and minimising the stigma it may attract. Comparison between free access to sanitary products and condoms may help to do this.

## Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

## Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

I think it is a great proposal and one which will make a huge difference to the lives of those with periods across the country.
