Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

The card should be available to anyone; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

This will ensure that nobody abuses their c-card by, eg, ordering too many products per month.
