Q1. Which of the following best expresses your view of the proposed Bill?

Partially supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

I feel women should be given more support in coping with the problems of menstruation . I am only partly supportive because there are a lot of other issues which also need addressed and more money is needed for al of them.

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available only to those on low incomes or in receipt of benefits; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

Please explain the reasons for your response.

I feel that an abuse of the system may occur if there is unlimited access to these products.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Any of the above although GP surgeries are probably busy enough already.

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes
