Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

There have been times in my life when we had no money for sanitary protection

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

I suppose you need to keep a note of how much and who's getting them. This seems as good a way as any

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

If it is free for everyone at the point of need asking those who don't need to use the service not to. Let the choice be a moral one for those who don't need it

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

All of the above

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Because they are needed in these institutions

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, frequently

Please explain or give an example of your experience if you feel able to do so.

There were times when my family had to choose food over toothpaste sanitary towels soap. And later as a student or unemployed I went without using pieces of material

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

Please explain the reasons for your response

I am now in the menopause

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)	X					
(b) Colleges and universities	X					
(c) Businesses (including suppliers/retailers of sanitary products)	X					
(d) Individuals (including consumers of sanitary products)					X	

Please explain the reasons for your response

It will cost those who provide them and lower the cost for the woman

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Money could be saved by buying in bulk for the whole country

Neutral (neither positive nor negative)

Please explain the reasons for your response

I don't think it would have any impact

I seem to have missed the point what negative impact could it have on equality.
