Q1. Which of the following best expresses your view of the proposed Bill?

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Please explain the reasons for your response

I have always been against VAT levied on sanitary products. Periods are natural but NOT a luxury! In my family we have Lynch Syndrome and one of the symptoms is very heavy periods. My sister died of Womb Cancer but during her illness she had to hide her sanitary products because her husband complained how much they cost! I am aware of many women struggling to buy sanitary products every month. They are a necessity to enable women to be a full member of society.

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

It prevents embarrassment

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Pharmacies and Community Centres would be my preferred locations

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Young women are possible affected most by family budget restraints or if in further education other financial constraints

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, frequently

Please explain or give an example of your experience if you feel able to do so.

Before my hysterectomy as a single parent I struggled to buy sanitary products. I sometimes rang in sick to work as I was short of sanitary products and scared I would 'leak'!

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

| | Significant increase in cost | Some increase in cost | Broadly cost-neutral | Some reduction in cost | Significant reduction in cost | Unsure |
|---|------------------------------|-----------------------|----------------------|------------------------|-------------------------------|--------|
| (a) Government and the public sector (e.g. local authorities, the NHS) | | X | | | | |
| (b) Colleges and universities | | | | | | |
| (c) Businesses (including suppliers/retailers of sanitary products) | | | X | | | |
| (d) Individuals (including consumers of sanitary products) | | | | | X | |

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Advertising space on sanitary products or dispensers

Page 16: Equalities
