## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

**Please explain the reasons for your response**

It's simple and proved that it works

Q3. Which of the following best expresses your view in relation to a card-based system?

Having periods is not a choice, it's something that you are born with and so anyone should be able to claim what they require
