Yes, occasionally

I broke my leg in several places in London and was in royal London hospital for a week and a half, my period started nurse said as not a gynae ward just a ward for women they had no sanitary products I had to just bleed and change clothes. I landed in hospital with a suitcase of dirty washing I couldn't get to the hospital shop on crutches as was a stair up to it and there was no machine in the toilet. I had to bleed freely on my clothes until a friend was in London couple days later was an awful experience.
