Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

In today's world we should not be excluding young girls and women from participating fully in society because of the cost of sanitary ware.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

I think it will make it easier to go and get free sanitary ware

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

It should be universal as you don't know everyone's circumstances and some families might manage one month but struggle the next and if the family had two or three girls the costs of buying sanitary towels would be a struggle

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

I think it would be ideal if local shops in communities could sign up as a distribution point

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Because students are on a low or no income

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

No

Please explain or give an example of your experience if you feel able to do so.

I am in full employment so have never struggled to purchase sanitary products

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

Please explain the reasons for your response

I no longer need sanitary products
