Q1. Which of the following best expresses your view of the proposed Bill?

Partially supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

Free sanitary products should be more readily available not just as described in the bill which I fully support

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

Please explain the reasons for your response

I am not familiar with this system

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available only to those on low incomes or in receipt of benefits; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

Scheme should only be available to those in most need. A limit is not reasonable as every woman requires a different number of products each month.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

These should be available wherever possible.

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, occasionally

Q7. If sanitary products were available for free, which of the following would apply to you?

I would not expect to claim free products

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)			X			
(b) Colleges and universities		X				
(c) Businesses (including suppliers/retailers of sanitary products)				X		
(d) Individuals (including consumers of sanitary products)			X			

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

No Response

Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Please explain the reasons for your response

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Women have little choice to have a period every month so it has no bearing on equality. If anything menstruating women have been discriminated against if they cannot afford sanitary products.

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

This is a ridiculous question based on fear of upsetting people

Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes
