Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

Woman should not have to do without these essential items. Women in poverty are struggling to buy basic and sanitary provisions. Without proper sanitary protection, women and girls may be less confident and feel nervous and embarrassed at school and work and social situations.

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Please explain the reasons for your response

It would be easy to go and get sanitary products without any embarrassment.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

It keeps all women the same and prevent stigma.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

All of above including schools

Young women who are in poverty will be less likely to attend if they cannot afford products.

In a past relationship which was abusive, my partner kept all the money and I could not buy sanitary pads.
