

# Proposed Sanitary Products (Free Provision) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Politician (MSP/MP/peer/MEP/Councillor)

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

**Please explain the reasons for your response**

I was disappointed to know that so many women were struggling to pay for sanitary products. This bill will

Q1. Which of the following best expresses your view of the proposed Bill?

ensure women are not faced with this problem if they are unable to afford them.

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

**Please explain the reasons for your response**

That would ensure flexibility and that they are going to the right people.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available only to those on low incomes or in receipt of benefits; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

**Please explain the reasons for your response.**

To avoid abuse of system. I know how much abuse of the prescription service is going on not because of greed but because people don't realise that to return because you haven't used means it costs money to dispose of the drugs.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Pharmacies, Health Clinics and schools

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

**Please explain the reasons for your response**

Yes but budget needs to be met by Scottish Government

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Not applicable: I do not need or use sanitary products

**Please explain or give an example of your experience if you feel able to do so.**

Not now but when I was still at school

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)						X
(b) Colleges and universities						X
(c) Businesses (including suppliers/retailers of sanitary products)					X	
(d) Individuals (including consumers of sanitary products)					X	

**Please explain the reasons for your response**

Not sure how to answer this question I would hope to think SG would be footing the bill.

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Reduced costs if bulk purchase by procurement should reduce costs to SG

## Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

By not passing cost onto Local Authorities. Ensuring it is only for people who can't honestly afford to buy themselves. Close monitoring of scheme for abuse.

## Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Unsure

## Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

Be careful of abuse and not for everyone only those who can't afford.
