Partially supportive

Please explain the reasons for your response

Q1. Which of the following best expresses your view of the proposed Bill?

Although I think it's great if people in education get free sanitary products I also feel that all women should get this as many are on low incomes or minimum wages

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Unsure

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

Please explain the reasons for your response.

I believe everyone woman should get free sanitary products but there should be a limit each month unless more authorised by a Doctor if they get heavy periods

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Any one of the above or multiple locations

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Please explain the reasons for your response

Most definitely as young girls may be embarrassed to ask someone for them

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Yes, occasionally

Please explain or give an example of your experience if you feel able to do so.

As we are both on low incomes but don't get benefits we struggle from month to month and sometimes it is hard to buy products and have to borrow money from relatives

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally
