

# Proposed Sanitary Products (Free Provision) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Student (at school, college or university)

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

**Please explain the reasons for your response**

Q1. Which of the following best expresses your view of the proposed Bill?

The provision of sanitary products should be a right for all women not just for the privilege. The fact that they have to be called a privilege is an outrage. Free condoms are handed out nearly everywhere on campus yet free pads and tampons are not. We are not asking for brand name or amazing quality but some form of provision to be given to us.

## Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

**Please explain the reasons for your response**

It would manage to control the amount of provision given rather than people taking too many.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; card-holders should have unlimited access to free sanitary products

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

All places that have a high density of females should have free dispensary provisions available, such as GP, schools, universities, community centres. The ability to be everywhere would allow for everyone to be able to get access whenever they need to rather than going to a specific allocated place.

## Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

**Please explain the reasons for your response**

Schools have a higher density of females than any other place outside of education. The provision of free sanitary products to children/young adults would allow for those who cannot afford to and those who are denied the provision by their family to gain access to a basic human need.

## Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

No

Q7. If sanitary products were available for free, which of the following would apply to you?

I would expect to claim free products occasionally

**Please explain the reasons for your response**

I am able to afford provisions for myself at this time period however in future events of financial struggle and times of emergency it would be beneficial.

## Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)		X				
(b) Colleges and universities	X					
(c) Businesses (including suppliers/retailers of sanitary products)			X			
(d) Individuals (including consumers of sanitary products)				X		

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

*No Response*

## Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Positive

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

*No Response*

## Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Unsure

## Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

*No Response*
